With an extensive background in client facing Account Management roles at tech companies, I'm always on the lookout for my next challenge. After immersing myself in web development full time in 2020, I've already collected an impressive full stack skillset with the latest technologies and frameworks. I'm a tenacious, lifelong learner with a unique combination of technical and interpersonal skills that add something special to any team.

Relevant Skills

- Javascript
- Databases
- MERN Stack
- HTML/SCSS
- Rest APIs/GraphQL
- AWS
- Python
